

Gibraltar Announces First-Quarter 2019 Financial Results

May 3, 2019

Revenues of \$227.4 Million Exceeded Guidance

GAAP EPS of \$0.19 and Adjusted EPS of \$0.28 In Line with Expectations

BUFFALO, N.Y.--(BUSINESS WIRE)--May 3, 2019-- Gibraltar Industries, Inc. (Nasdaq: ROCK), a leading manufacturer and distributor of building products for the residential, industrial, infrastructure, and renewable energy and conservation markets, today reported its financial results for the three-month period ended March 31, 2019. All financial metrics in this release reflect only the Company's continuing operations unless otherwise noted.

First-quarter Consolidated Results

Gibraltar reported the following consolidated results:

<i>Dollars in millions, except EPS</i>	Three Months Ended March 31,					
	GAAP			Adjusted		
	2019	2018	% Change	2019	2018	% Change
Net Sales	\$227.4	\$215.3	5.6%	\$227.4	\$215.3	5.6%
Net Income	\$6.3	\$8.4	(25.0)%	\$9.2	\$8.3	10.8%
Diluted EPS	\$0.19	\$0.26	(26.9)%	\$0.28	\$0.26	7.7%

The Company reported first-quarter 2019 net sales of \$227.4 million, exceeding its guidance as noted in its fourth-quarter 2018 earnings release. The 5.6 percent increase was mainly due to higher demand for innovative products in the Industrial and Infrastructure and Renewable Energy and Conservation segments, and increased activity in the Infrastructure business.

GAAP and adjusted earnings were in line with guidance provided in the Company's fourth-quarter 2018 earnings release. GAAP earnings were down year over year due to incremental costs incurred in the field to improve durability and ensure performance of our solar tracker, along with costs related to the Company's senior leadership transition plan and the recent repayment of its Senior Subordinated 6.25% Notes. These costs were partially offset by strong demand for higher-margin innovative products in the Industrial and Infrastructure segment, ongoing benefits from 80/20 simplification initiatives and interest savings from the repayment of the Company's 6.25% Notes. The adjusted amounts for the first quarter of 2019 and 2018 remove special items, such as restructuring costs, senior leadership transition and debt repayment costs from both periods, as further described in the appended reconciliation of adjusted financial measures.

Management Comments

"With solid performance across our businesses in the first quarter of 2019, we delivered revenues of \$227 million, above our guidance, and GAAP and non-GAAP earnings of \$0.19 and \$0.28, respectively, in line with our expectations," said President and Chief Executive Officer William Bosway. "By executing on our four-pillar strategy, we benefitted from higher-margin innovative products, and continued operating improvement in the Industrial & Infrastructure segment. In addition, we used cash generated in prior years to repay our outstanding debt, resulting in significant cost savings in the quarter."

"During the quarter we saw continued demand for our innovative tracker solution," added Bosway. "While we incurred incremental costs this quarter to improve durability and ensure performance of this product, we expect it to continue to track towards our target margin profile as we progress through the remainder of the year."

"We have made excellent operational progress across our businesses, but our transformation is far from complete," said Bosway. "Our focus is on driving growth by reinforcing our 80/20 simplification strategy to create additional opportunity to enhance our innovation and new product development programs. The appointment of Pat Burns to the newly created COO position will help accelerate these efforts."

First-quarter Segment Results

Residential Products

For the first quarter, the Residential Products segment reported:

<i>Dollars in millions</i>	Three Months Ended March 31,					
	GAAP			Adjusted		
	2019	2018	% Change	2019	2018	% Change
Net Sales	\$103.7	\$103.9	(0.2)%	\$103.7	\$103.9	(0.2)%
Operating Margin	11.7%	12.7%	(100) bps	11.8%	12.6%	(80) bps

First-quarter 2019 revenues in Gibraltar's Residential Products segment were essentially flat versus prior year, as unfavorable weather impacted demand for building products, with volume declines generally offset by selling price increases.

The first-quarter operating margin decline resulted from unfavorable product mix and volume leverage, partially offset by benefits from 80/20 simplification initiatives. The adjusted operating margin for the first quarter of 2019 and 2018 removes the special charges for restructuring initiatives under the 80/20 program from both periods.

Industrial & Infrastructure Products

For the first quarter, the Industrial & Infrastructure Products segment reported:

<i>Dollars in millions</i>	Three Months Ended March 31,					
	GAAP			Adjusted		
	2019	2018	% Change	2019	2018	% Change
Net Sales	\$54.9	\$54.4	0.9%	\$54.9	\$54.4	0.9%
Operating Margin	7.5%	4.8%	270 bps	7.5%	3.9%	360 bps

First-quarter 2019 revenues in Gibraltar's Industrial & Infrastructure Products segment were up 1 percent year over year, driven by increased activity in the Infrastructure business and continued demand for innovative products, partially offset by lower volumes in the Industrial business for more commoditized products.

GAAP and adjusted operating margin improvement for the segment resulted from favorable product mix, higher volume leverage in the Infrastructure business, and the continued benefit from 80/20 simplification initiatives. This segment's adjusted operating margin for the first quarter of 2019 and 2018 removes the special charges for restructuring initiatives under the 80/20 program.

Renewable Energy & Conservation

For the first quarter, the Renewable Energy & Conservation segment reported:

<i>Dollars in millions</i>	Three Months Ended March 31,					
	GAAP			Adjusted		
	2019	2018	% Change	2019	2018	% Change
Net Sales	\$68.8	\$57.0	20.7%	\$68.8	\$57.0	20.7%
Operating Margin	2.4%	7.1%	(470) bps	2.5%	7.7%	(520) bps

Renewable Energy & Conservation segment revenues were up 21 percent year over year, driven by strong demand for its innovative tracker solution and the contribution from the prior-year acquisition of SolarBOS.

GAAP and adjusted operating margins decreased as incremental costs incurred in the field to improve durability and ensure performance of the recently launched tracker solution more than offset the benefits of improved volumes. This segment's adjusted operating margin for the first quarter of 2019 and 2018 removes the special charges for restructuring initiatives.

Business Outlook

"Looking into Q2 and beyond, we are confident in our ability to execute on our operating plans," said Bosway. "Through key resource investments across our businesses, we are accelerating our ability to innovate and become more relevant to our customers. With solid end-market activity across our portfolio, we look forward to another year of driving profitable growth and making more money at a higher rate of return with a more efficient use of capital."

Gibraltar is reiterating its guidance for revenues and earnings for the full year 2019. Gibraltar expects 2019 consolidated revenues to be in excess of \$1 billion. GAAP EPS for full year 2019 are expected to be between \$1.95 and \$2.10, or \$2.40 to \$2.55 on an adjusted basis, compared with \$1.96 and \$2.14, respectively, in 2018.

For the second quarter of 2019, the Company is expecting revenue in the range of \$268 million to \$274 million. GAAP EPS for the second quarter 2019 are expected to be between \$0.60 and \$0.65, or \$0.72 to \$0.77 on an adjusted basis.

About Gibraltar

Gibraltar Industries is a leading manufacturer and distributor of building products for the residential, industrial, infrastructure, and renewable energy and conservation markets. With a four-pillar strategy focused on operational improvement, product innovation, portfolio management and acquisitions, Gibraltar's mission is to drive best-in-class performance. Gibraltar serves customers primarily throughout North America and to a lesser extent Asia. Comprehensive information about Gibraltar can be found on its website at www.gibraltar1.com.

Safe Harbor Statement

Information contained in this news release, other than historical information, contains forward-looking statements and is subject to a number of risk factors, uncertainties, and assumptions. Risk factors that could affect these statements include, but are not limited to, the following: the availability of raw materials and the effects of changing raw material prices on the Company's results of operations; energy prices and usage; changing demand for the Company's products and services; changes in the liquidity of the capital and credit markets; risks associated with the integration and performance of acquisitions; and changes in interest and tax rates. In addition, such forward-looking statements could also be affected by general industry and market conditions, as well as macroeconomic factors including government monetary and trade policies, such as tariffs and expiration of tax credits along with currency fluctuations and general political conditions. Other risks and uncertainties that arise from time to time are described in Item 1A "Risk Factors" of the Company's Annual Report on Form 10-K. The Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable law or regulation.

Adjusted Financial Measures

To supplement Gibraltar's consolidated financial statements presented on a GAAP basis, Gibraltar also presented certain adjusted financial measures in this news release. Adjusted financial measures exclude special charges consisting of restructuring costs primarily associated with the 80/20 simplification initiative, senior leadership transition costs, debt repayment costs, and other reclassifications. These adjustments are shown in the reconciliation of adjusted financial measures excluding special charges provided in the supplemental financial schedules that accompany this news release. The Company believes that the presentation of results excluding special charges provides meaningful supplemental data to investors, as well as management, that are indicative of the Company's core operating results and facilitates comparison of operating results across reporting periods as well as comparison with other companies. Special charges are excluded since they may not be considered directly related to the Company's ongoing business operations. These adjusted measures should not be viewed as a substitute for the Company's GAAP results, and may be different than adjusted measures used by other companies.

Next Earnings Announcement

Gibraltar expects to release its financial results for the three-month period ending June 30, 2019, on Friday, July 26, 2019, and hold its earnings conference call later that morning, starting at 9:00 a.m. ET.
