BUFFALO, N.Y.--(BUSINESS WIRE)--May 2, 2014-- Gibraltar Industries, Inc. (Nasdaq: ROCK), a leading manufacturer and distributor of products for residential and industrial markets, today reported its financial results for the three-month period ended March 31, 2014. All financial metrics in this release reflect only the Company's continuing operations unless otherwise noted.

#### **First-Quarter Consolidated Results**

Gibraltar's net sales for the first quarter of 2014 were \$191.0 million compared with \$196.8 million for the first quarter of 2013. First-quarter 2014 adjusted net loss was \$1.7 million, or \$0.05 per share, compared with adjusted net income of \$1.2 million, or \$0.04 per diluted share, in the first quarter of 2013. The adjusted first-quarter 2014 results exclude special items with an after-tax net charge totaling \$0.4 million, or \$0.02 per diluted share, resulting primarily from acquisition-related costs and exit activity costs related to business restructuring. The adjusted net income for the first quarter of 2013 excluded after-tax special charges of \$4.9 million, or \$0.16 per diluted share, resulting primarily from bond re-financing costs. Including these items in the respective periods, the first-quarter 2014 GAAP results were a net loss of \$2.1 million, or \$0.07 per share, compared with a loss of \$3.6 million, or \$0.12 per share, in the first quarter of 2013.

### **Management Comments**

"Although Gibraltar's first-quarter sales were lower than expected due to the prolonged winter season in most parts of the country, we believe underlying conditions in our end markets remain positive," said Chairman and Chief Executive Officer Brian Lipke. "In addition, driven by improving order rates in April, we are reaffirming our adjusted EPS guidance for 2014 despite the slow start to the early part of the year. The increased order rates were primarily generated by increased demand for our centralized postal storage products which we believe will lead to strong sales growth for our residential products segment throughout 2014."

"Our revenue for the first quarter decreased 3% from the same period last year, as adverse weather delayed the normal seasonal ramp we see in our order rates toward the end of the quarter," Lipke said. "Moreover, our results for the first quarter last year benefited from a stronger product mix in both our Residential and Industrial & Infrastructure Products segments. On the bottom-line, our results reflected the weather-driven decline in orders and shipment volumes along with product mix and price adjustments, primarily in our Industrial & Infrastructure Products segment."

#### **First-Quarter Segment Results**

### Residential Products

First-quarter 2014 net sales in Gibraltar's Residential Products segment decreased 3% to \$87.0 million, compared with \$89.7 million for the first quarter of 2013. First-quarter 2014 adjusted operating margin decreased 440 basis points year-over-year to 3.0%. Sales in the segment reflected decreased demand in residential new construction as well as repair and remodeling applications. The segment's lower adjusted operating margin reflected the result of weather-affected lower volume and higher raw materials costs. Operating margins were reduced further from pricing adjustments provided in certain product lines.

#### Industrial & Infrastructure Products

First-quarter 2014 net sales in Gibraltar's Industrial & Infrastructure Products segment decreased 3% to \$104.3 million, compared with \$107.5 million for the first quarter of 2013. First-quarter 2014 adjusted operating margin decreased 300 basis points year-over-year to 3.1%. Sales in the segment reflected lower shipment volumes to the transportation infrastructure market with stable pricing in the Company's North American industrial markets. Sales in the quarter also reflected slightly improved product demand in the Company's European markets. Segment adjusted operating margin reflected lower infrastructure shipments, less favorable mix compared with the year-earlier quarter, and production inefficiencies related to inclement weather.

### Outlook

"Based on positive trends in recent incoming order rates, we believe the challenges we faced in the first quarter will prove to be temporary," said Lipke.

"As a result, we continue to expect Gibraltar will deliver sales growth between 4% and 7% in 2014. We expect this growth will be led by momentum in residential demand, bolstered by improving demand for postal products, while increases in demand for our industrial and infrastructure products should be favorable for the year but weighted toward the second half."

"At the same time, our continuing operational initiatives position Gibraltar for another year of bottom-line improvement in 2014. With margin expansion on full-year sales growth, we continue to expect adjusted earnings per share for 2014 in the range of \$0.76 to \$0.90 which compares with \$0.69 reported for 2013, with 2014 GAAP earnings per share of \$0.73 to \$0.87. In the short term, we expect our results for the second quarter of 2014 to be favorable both sequentially and year-over-year led by seasonally stronger residential construction activity bolstered by improving order rates for our residential products, with equivalent results in our industrial and transportation infrastructure markets," Lipke concluded.
