Gibraltar Industries

Investor Presentation January 2021 www.Gibraltar1.com

Safe Harbor Statements

Forward-Looking Statements

Certain information set forth in this presentation, other than historical statements, contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that are based, in whole or in part, on current expectations, estimates, forecasts, and projections about the Company's business, and management's beliefs about future operations, results, and financial position. These statements are not guarantees of future performance and are subject to a number of risk factors, uncertainties, and assumptions. Actual events, performance, or results could differ materially from the anticipated events, performance, or results expressed or implied by such forward-looking statements. Before making any investment decisions regarding our company, we strongly advise you to read the section entitled "Risk Factors" in our most recent annual report on Form 10-K which can be accessed under the "SEC Filings" link of the "Investor Info" page of our website at www.Gibraltar1.com. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law or regulation.

Adjusted Financial Measures

To supplement Gibraltar's consolidated financial statements presented on a GAAP basis, Gibraltar also presented certain adjusted financial data in this presentation. Adjusted financial data excluded special charges consisting of restructuring costs primarily associated with 80/20 simplification initiatives, senior leadership transition costs, acquisition-related costs, early debt repayment costs, and other reclassifications. These adjustments are shown in the reconciliation of adjusted financial measures excluding special charges provided in the supplemental financial schedules that accompany the earnings news release. The presentation also includes adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA) for TerraSmart. Adjusted EBITDA excludes special charges consisting of transaction related costs, costs incurred on new product development and other reclassifications. EBITDA is a measure commonly used by the capital markets to value enterprises. Interest, taxes, depreciation and amortization can vary significantly between companies due in part to differences in accounting policies, tax strategies, levels of indebtedness and interest rates. The Company believes that the presentation of results excluding special charges provides meaningful supplemental data to investors, as well as management, that are indicative of the Company's core operating results and facilitates comparison of operating results across reporting periods as well as comparison with other companies. Adjusted EBITDA is also a useful measure of the Company's ability to service debt and is one of the measures used for determining debt covenant compliance. Special charges are excluded since they may not be considered directly related to the Company's ongoing business operations. These adjusted measures should not be viewed as a substitute for the Company's GAAP results, and may be different than adjusted measures used by other companies.

Operating During COVID-19 Pandemic – Launched Early March 2020

- Team Support,
 Health & Safety
- Kept team together and invested in more people during 2020
- 160 hours COVID-19 pay for hourly employees financial support
- Mandatory PPE and provided for employee families as well

- Compliance
- Follow CDC and DHS recommendations, education, and awareness
- State & local mandate management and implementation
- Support travel restrictions and replace with digital connectivity
- 3 Operating Protocols
- Business continuity processes digital, security work remotely
- Social distancing in facilities and offices, zone management in factories
- Temperature checks, visitor restrictions, sanitization management
- Communication
- Live Town Hall meetings with Q&A weekly, monthly and quarterly
- Tracking Covid-19 cases by location and across Gibraltar daily / weekly
- Continuous communication with suppliers and customers
- 5 Community Support
- Food Bank donation 3.3 million meals distributed equally across our operations ~ 85,000 meals per location

Our Commitments to Our Stakeholders

The World

Driving Environmentally-Sound Solutions: Energy Production, Growing Food, Efficiency

- 45% of our portfolio focused on our environment through Renewables & Conservation
- Installed over 2500 solar projects offsetting more than 4M metric tons of CO²
- Optimize food chain & crop yield via sunlight, optimal water usage, & no pesticides
- Powering our 1st facility with Solar energy in 2021

Our Communities

Investing in the communities where our people live & work

- Support local schools and charities in our communities
- Funded 3.3M meals in 2020 for community food banks
- Support U.S. Veterans, The United Way, Ronald McDonald house, Make-A-Wish Foundation, Habitat for Humanity, and Food Banks in our communities
- Employee giving program with Gibraltar 100% match

Our People

Creating the best environment for our people to have success

- Health & Safety is #1 priority
- Ethics / DEI / Compliance / Cyber Security education – 12.5 hours per year for all Board members & Gibraltar employees
- Formal education investment via Gibraltar University – launched in January 2020
- 50% of professional hires were diverse in 2020
- ~45% of Board is diverse

Accelerating Our Transformation By Building Leadership Positions In Attractive Markets Improving Growth, Margin, & Return Profile

Gibraltar's Strategic Rubric

Strategic foundation for key decisions and critical investments

Roadmap to create unique leadership and industry-leading relevance in our markets

| 1 Market Attractiveness | | | | | | | | | | |
|--|-------------------------------|-------------------------------------|--|--|--|--|--|--|--|--|
| Market Outlook | Demand Profile | Market Structure | | | | | | | | |
| Growing and sustaining high margins and ROIC | Stable and predictable market | Business model / limited disruption | | | | | | | | |

| 2 Ability to Drive Value | | | | | | | | | | | |
|------------------------------------|--|----------------------------------|------------------------------------|--|--|--|--|--|--|--|--|
| Market Leadership | Market Insight | Fit to Gibraltar Capability | Growth Runway | | | | | | | | |
| Defensible with minimum disruption | Understanding of customer and industry | Play to Gibraltar's strengths | Opportunity for capital deployment | | | | | | | | |

Building Leadership and Relevance in Solar Energy Market Serving Community, Commercial & Industrial, and Utility Solar Segments

RBI SOLAR

<u>June 2015</u> Acquired RBI Solar,

provider of ground mount solar racking solutions for fixed-tilt & dual-axis tracker

August 2018
Acquired SolarBOS,
provider of
electrical balance
of systems
products for fixedtilt & tracker

December 2020
Acquired Sunfig,
provider of project
optimization
software (SIFT),
development
services & API's

December 2020
TerraSmart,
provider of ground
mount racking
solutions fixed-tilt
and single-axis
tracker

Pro Forma 2020 ~\$400M

~\$155M TerraSmart

~\$245M Gibraltar

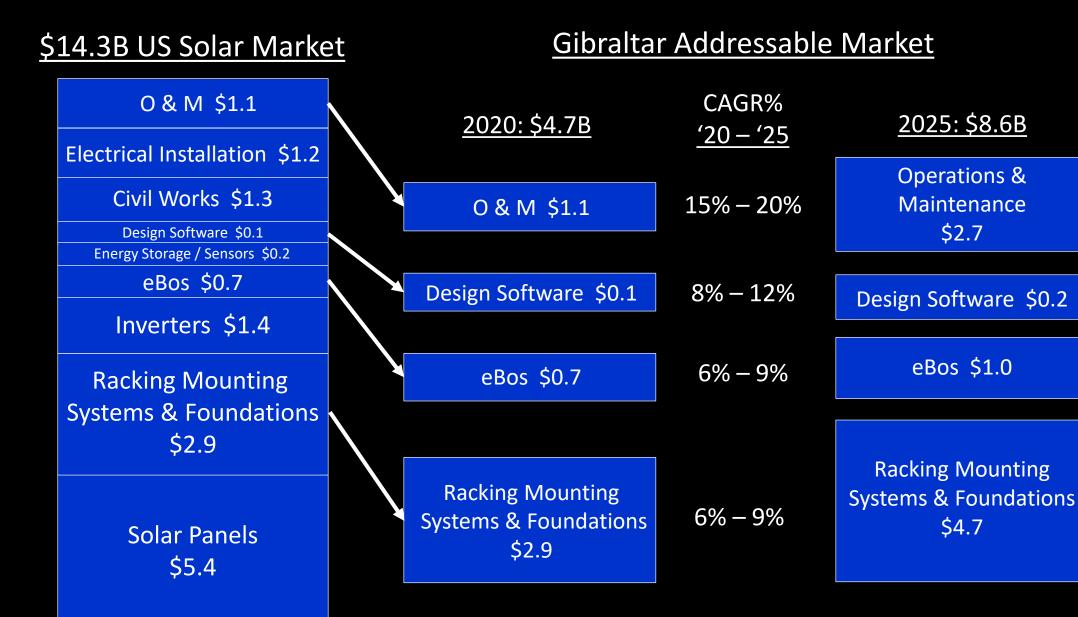

Revenue Over Time (\$M)

GIBRALTAR

2015

\$107M

Building Leadership In Key Segments Currently Valued at \$4.7B

Key Drivers

- Addressable market growing 10% - 15% CAGR through 2025 across all segments — Community, Commercial & Industrial, and Utility
- Solar energy economics are attractive and are improving with technology & ongoing ITC support
- Market has long runway for infrastructure build out and services as it ages and matures
- Leaders will build presence via Technology / IP in both products and services, scalability, and broader portfolio of services

Transaction Consideration

- \$220M, subject to working capital adjustment
- No earnouts

Transaction Multiple

7.9x - 8.5x projected 2020 adjusted EBITDA

Financial **Impact**

- Expected to be immediately accretive to earnings
- \$150M \$155M in revenue and \$26M \$28M in 2020 adjusted EBITDA
- Procurement, field execution, and business system synergies
- Creates foundation for recurring revenue streams

Financial Summary

- \$85.0M drawn on revolver, \$0.6M assumed debt, remainder cash on hand
- Post-transaction < 0.5x leverage ratio
- Fully repay the revolver within 12 months using cash from operations

Closing **Process**

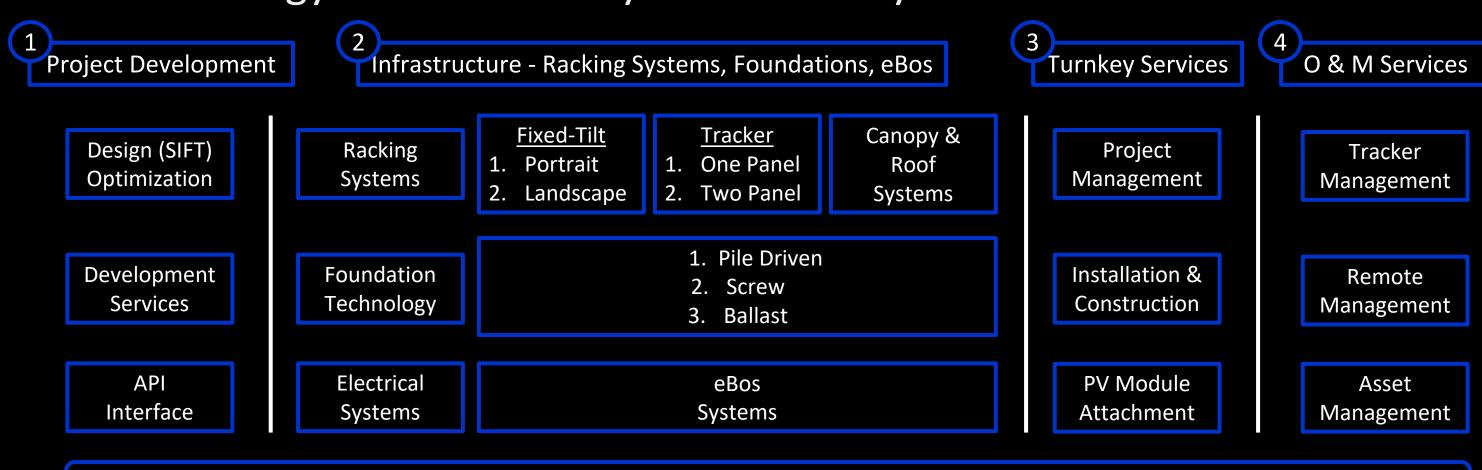

Transaction closed December 31, 2020

Broadest Portfolio Servicing the U.S. Solar Industry - Best Solution for Solar Energy Production Anywhere on Any Terrain

Serving Community, Commercial & Industrial, and Utility Solar – Small, Medium, and Large Projects

Project Development

Design (SIFT)
Optimization

Design optimization: deploying the Sunfig Instant Feasibility Tool (SIFT), a web-based software solution that optimizes solar project design for maximum financial return in real time using data and analytics.

Development Services <u>Development services:</u> configure and model complex contract and project requirements with speed, optionality, and accuracy

API Interface

API integration: into existing customer software, tools, and processes including automated layout for ground mount and commercial rooftops, DC and AC coupled storage modeling, performance and financial modeling, and topography analysis.

Gibraltar's Solar Energy Business Pro Forma

- Addressable market expected to grow 10% -15% CAGR
- Grow participation in community, C&I, and utility solar with broadest industry offering
- Accelerate recurring revenue through remote management and optimization services
- Continue innovation / IP development for products and services
- Execute commercial and operational synergies

Key Strategic Benefits of These Transactions For Gibraltar's Solar Energy Business

- Strengthens and scales our position in the \$4.7B U.S. solar market which is growing at 10% 15% annually
- Creates the best portfolio of racking system and foundation technology infrastructure, eBos systems, turnkey services and design software solutions

Supports our vision to accelerate making solar energy readily available everywhere

Enhances revenue growth and margin profile by driving leadership in a fast growing and profitable market

Investment Highlights

Multi-Industrial focused on sustainable value creation

On track to deliver solid revenue & adjusted EPS growth, surpassing 2019 results

Accelerating transformation to drive growth and returns across platforms vital to core economic needs and less impacted by economic variables

Ample balance sheet flexibility provides resilience, supports growth

Over 45% of revenue base now generated from businesses that solve the world's problems

Asset portfolio leverages core competencies in growing markets

APPENDIX

Recent Acquisitions – Conservation Platform

Commercial Greenhouse

- Completed Q1 2020
- Greenhouse manufacturer & fullservice turnkey site provider – built 600+ acres of growing sites since 2005
- Establishes Gibraltar N.A. Market leader in organics, fruits & vegetables
- \$7M purchase price; \$25M working capital investment
- \$75M revenue run rate

Extraction Processing

- 1st Investment, Completed
 Q3 2019
- Designer & Manufacturer of Botanical Oil Extraction Systems Utilizing Subcritical And Supercritical CO2
- \$12.5M In An All Cash Transaction
- June 30, 2019 TTM Revenues: \$17.7M

- 2nd investment, completed
 Q1 2020
- Designer & manufacturer of closed-loop ethanol extraction systems, evaporation and distillation equipment & service
- \$50M in an all cash transaction
- 2019 revenue: \$46M

Recent Acquisition – Expanding Leadership Position in Single Family Mail & Package Market

Business Rationale

- Enhanced architectural design
- Improves digital marketing expertise
- Superior outsourcing expertise
- Favorable relationship with USPS
