Gibraltar Announces Third-Quarter 2020 Financial Results

Q3 Revenues Grow 10%, GAAP and Adjusted EPS Grow 36% and 12%, Respectively Backlog of \$304 million up 26% on Renewable Energy and Conservation Demand Strong Balance Sheet and Liquidity Supports Execution and Ongoing Investment in the Business Completes Acquisition of Architectural Mailboxes in Residential Products Segment

Buffalo, New York, October 29, 2020 - Gibraltar Industries, Inc. (Nasdaq: ROCK), a leading manufacturer and provider of products and services for the renewable energy, conservation, residential, industrial and infrastructure markets, today reported its financial results for the three-month period ended September 30, 2020.

"We delivered a solid performance as we continued to focus on executing our business plans. Revenue increased 10.2% and adjusted EPS increased 11.6%, with GAAP and adjusted operating margins improving 280 and 40 basis points respectively," said President and Chief Executive Officer Bill Bosway. "Our investments across the business over the last nine months have been meaningful, targeted, and are beginning to generate positive results. We also recently completed a \$27 million acquisition of Architectural Mailboxes, a complementary addition to our Mail and Package solutions business. We enter the fourth quarter with solid momentum and a backlog of \$304 million, up 26%, and a strong, liquid balance sheet to fund key initiatives."

Third Quarter 2020 Consolidated Results

Gibraltar reported the following consolidated results:

	Three Months Ended September 30,								
Dollars in millions, except EPS		GAAP			Adjusted				
	<u>2020</u>	<u>2019</u>	<u>% Change</u>	<u>2020</u>	<u>2019</u>	<u>% Change</u>			
Net Sales	\$329.7	\$299.2	10.2%	\$329.7	\$299.2	10.2%			
Net Income	\$33.8	\$24.5	38.0%	\$34.9	\$31.2	11.9%			
Diluted EPS	\$1.02	\$0.75	36.0%	\$1.06	\$0.95	11.6%			

Third quarter 2020 net sales increased 10.2% to \$329.7 million, driven by the Residential Products and Renewable Energy & Conservation segments. Of the 10.2% increase, organic growth accounted for 2.1%, and recent acquisitions contributed 8.1%.

GAAP earnings increased 38.0% to \$33.8 million, or \$1.02 per share, while adjusted earnings increased 11.9% to \$34.9 million, or \$1.06 per share, the result of organic growth and marked margin expansion in our Residential Products segment, continued execution in all core businesses, product and services mix, favorable alignment of price to material costs, and ongoing benefits from operational excellence initiatives. Adjusted measures remove charges

for restructuring initiatives, acquisition-related items, senior leadership transition costs, and other reclassifications, as further described in the appended reconciliation of adjusted financial measures.

Third Quarter Segment Results

Renewable Energy & Conservation

For the third quarter, the Renewable Energy & Conservation segment reported:

			Three Months Ende	ed September 30,					
Dollars in millions		GAAP		Adjusted					
	<u>2020</u>	<u>2019</u>	<u>% Change</u>	2020	<u>2019</u>	<u>% Change</u>			
Net Sales	\$128.3	\$116.8	9.8%	\$128.3	\$116.8	9.8%			
Operating Margin	11.1%	16.8%	(570) bps	11.6%	17.8%	(620) bps			

Segment revenue increased 9.8% driven by growth in Renewable Energy and previous acquisitions in the Conservation business, offset by a decline in the core Conservation business related to a slowdown in the cannabis and hemp markets. Total segment backlog increased 28% with Renewable Energy and Conservation businesses contributing equally to the increase over 2019. The strength in backlog is the result of strong end market demand in Renewable Energy, and in Conservation, driven by strength in the fruits and vegetables market and increasing activity in the cannabis market.

Adjusted operating margin declined for the quarter driven by near-term market challenges impacting the Conservation business, particularly related to the cannabis and hemp markets. The acquisitions made in the Conservation business delivered margins consistent with expectations, and margins are expected to improve moving forward. Renewable Energy margin performance remains solid, driven by strong execution, participation gains, and product and service mix.

Residential Products

For the third quarter, the Residential Products segment reported:

		Tł	nree Months Ende	d September 30	,	
Dollars in millions		GAAP			ed	
	<u>2020</u>	<u>2019</u>	<u>% Change</u>	<u>2020</u>	<u>2019</u>	<u>% Change</u>
Net Sales	\$151.7	\$126.3	20.1%	\$151.7	\$126.3	20.1%
Operating Margin	21.4%	13.5%	790 bps	21.5%	16.2%	530 bps

Segment revenue increased 20.1% as the home improvement market continued to show solid activity, and through participation gains across our various distribution channels. Adjusted operating margin increased with consistent execution on higher volume, effective price and material cost management, and additional 80/20 initiatives.

Subsequent to quarter-end, Gibraltar acquired Architectural Mailboxes for \$27 million, a complementary addition to Gibraltar's existing mail & package solutions business within the Residential segment. The acquisition provides an entry into new market segments while creating synergy across digital marketing, engineering, and supply chain initiatives. Architectural Mailboxes revenue is expected to be \$26 million in 2020.

Industrial & Infrastructure Products

For the third quarter, the Industrial & Infrastructure Products segment reported:

	Three Months Ended September 30,									
Dollars in millions		GAAP			Adjusted					
	<u>2020</u>	<u>2019</u>	<u>% Change</u>	<u>2020</u>	<u>2019</u>	<u>% Change</u>				
Net Sales	\$49.7	\$56.2	(11.6)%	\$49.7	\$56.2	(11.6)%				
Operating Margin	10.5%	9.7%	80 bps	11.0%	10.2%	80 bps				

Segment revenue decreased 11.6%, driven by lower demand for core industrial products. The infrastructure business was down slightly as the pandemic affected spending on infrastructure projects in certain end markets. Infrastructure backlog grew slightly.

The increase in adjusted operating margin was driven by continued improvement in execution in the industrial business and effective price and material cost management.

Business Outlook

Gibraltar delivered solid revenue and adjusted EPS growth through the first three quarters, and expects fourth quarter performance to surpass 2019 results. Given the ongoing level of uncertainty related to the pandemic, the economy, and the upcoming election, Gibraltar is maintaining the practice of providing qualitative guidance.

"While our momentum and end market trends continue to be positive, we are closely monitoring the everchanging pandemic landscape and potential impact on the U.S. and global economy," Bosway commented. "We remain focused on executing our operating playbook, maintaining a safe environment for our people, and meeting our customers' needs every day. We will also continue key organic and inorganic investments to strengthen our business platforms for the markets we serve."

Adjusted Financial Measures

To supplement Gibraltar's consolidated financial statements presented on a GAAP basis, Gibraltar also presented certain adjusted financial measures in this news release. Adjusted financial measures exclude special charges consisting of restructuring costs primarily associated with 80/20 simplification initiatives, senior leadership transition costs, early debt repayment, acquisition related costs, and other reclassifications. These adjustments are shown in the reconciliation of adjusted financial measures excluding special charges provided in the supplemental financial schedules that accompany this news release. The Company believes that the presentation of results excluding special charges provides meaningful supplemental data to investors, as well as management, that are indicative of the Company's core operating results and facilitates comparison of operating results across reporting periods as well as comparison with other companies.
