Buffalo, New York, February 22, 2018 - Gibraltar Industries, Inc. (Nasdaq: ROCK), a leading manufacturer and distributor of building products for the residential, industrial, infrastructure, and renewable energy and conservation markets, today reported its financial results for the three- and twelve-month periods ended December 31, 2017. All financial metrics in this release reflect only the Company's continuing operations unless otherwise noted.

Fourth-quarter Consolidated Results

Gibraltar reported the following consolidated results:

Three Months Ended December 31,

Dollars in millions, except EPS		GAAP		Adjusted					
	<u>2017</u>	<u>2016</u>	% Change	2017	<u>2016</u>	% Change

The Company reported fourth-quarter 2017 net sales of \$258.1 million, exceeding the Company's expectations of \$231 million to \$236 million as noted in its third-quarter earnings release. The 11 percent year-over-year increase was driven primarily by sales in the Residential and Renewable Energy & Conservation segments, which offset the impact of the exit of the U.S. bar grating product line and its European residential solar racking business at the end of 2016, which provided fourth-quarter 2016 sales of \$16 million.

GAAP and adjusted earnings exceeded Company guidance due to the strong performance of the Residential Products and Renewable Energy & Conservation businesses along with lower corporate costs related to compensation plans. GAAP earnings further benefitted from the Tax Cuts and Jobs Act ("the Tax Reform Act") transition adjustment, which resulted in an income tax benefit of \$12.5 million, or \$0.39 per diluted share. The adjusted amounts for the fourth quarter 2017 and 2016 remove special items, from both periods, as described in the appended reconciliation of adjusted financial measures.

For the twelve months ended December 31, 2017, the Company reported revenues of \$986.9 million, 2.1 percent lower than the prior year due to portfolio changes and softness in the Industrial and Infrastructure segment. Adjusted for the Company's exit of its U.S. bar grating product line and European residential solar racking business at the end of 2016, revenues increased 4 percent on a year-over-year basis. GAAP net income of \$63.0 million, or \$1.95 per diluted share, increased 86 percent compared with \$33.7 million, or \$1.05 per diluted share, in the prior-year period, and includes the benefit to income taxes due to the Tax Reform Act. The twelve-month adjusted net income increased to \$55.3 million, or \$1.71 per diluted share, up 3 percent and 2 percent, respectively, compared with the prior-year period.

Management Comments

"We ended a strong year with fourth-quarter results that exceeded our top and bottom line guidance," said President and CEO Frank Heard. "Our revenues benefited from strong domestic sales in our Renewables and Conservation and Residential Products businesses, and from our new innovative products gaining traction. On the bottom line, lower corporate expenses, 130 basis points of margin improvement from 80/20 simplification projects and the benefit from the Tax Reform Act resulted in GAAP EPS of \$0.78 compared with \$(0.24) in the prior-year period. Our fourth-quarter adjusted EPS increased 37 percent on a year-over-year basis."

"Three years into our five-year transformation strategy, we have made tremendous progress both operationally and financially," added Heard. "During that time, we have improved our annual GAAP EPS from \$(2.63) in 2014 to \$1.95 in 2017, our GAAP operating margins from (8.2)% to 9.4%, and our return on invested capital from 3.9 percent to 12.6 percent. Through operational excellence, portfolio management, innovation and acquisitions, we now have a platform for sustainable growth built upon a portfolio and target markets that have significantly greater ongoing upside potential."

Fourth-quarter Segment Results

Residential Products

For the fourth quarter, the Residential Products segment reported:

Three Months Ended December 31,

Dollars in millions		GAAP			Adjusted	l
	<u>2017</u>	<u>2016</u>	% Change	2017	<u>2016</u>	% Change
Net Sales	\$105.3	\$92.9	13%	\$105.3	\$92.9	13%
Operating Margin	14.2%	13.9%	30 bps	14.3%	14.9%	(60) bps

The 13 percent increase in fourth-quarter 2017 net sales in Gibraltar's Residential Products segment reflects strong demand for building products in the repair and remodel and new housing construction markets, growing demand for the Company's centralized mail systems and electronic package solutions, and the contribution of the Package Concierge acquisition.

Strong sales for building products as well as a decrease in 80/20 initiative-related charges year over year contributed to the segment's GAAP operating margin improvement. Adjusted operating margin declined due to product mix. The adjusted operating margin for the fourth quarter of 2017 and 2016 removes the special charges for restructuring initiatives under the 80/20 program from both periods.

Industrial & Infrastructure Products

For the fourth quarter, the Industrial & Infrastructure Products segment reported:

Three Months Ended December 31,

Dollars in millions		GAAP		Adjusted						
	<u>2017</u>	<u>2016</u>	% Change	<u>2017</u>	<u>2016</u>	% Change				
Net Sales	\$49.1	\$61.6	(20)%	\$49.1	\$61.6	(20)%				
Operating Margin	4.6%	(16.4)%	nmf*	4.3%	3.1%	120 bps				
*not meaningful										

Fourth-quarter 2017 revenues in Gibraltar's Industrial & Infrastructure Products segment were down due to the impact of the 2016 divestiture of the U.S. bar grating business. Excluding this divestiture, revenues in this segment were up 4 percent on a year-over-year basis as a result of organic growth. Backlog for the infrastructure business increased from the prior-year quarter and the Company expects new products in the industrial business to continue to gain traction during 2018.

GAAP and adjusted operating margins for the segment reflect operational efficiencies resulting from the Company's 80/20 initiatives. This segment's adjusted operating margin for the fourth quarter of 2017 and 2016 removes the special charges for portfolio management activities and restructuring initiatives under the 80/20 program.

Renewable Energy & Conservation

For the fourth quarter, the Renewable Energy & Conservation segment reported:

Three Months Ended December 31,

Dollars in millions		GAAP				Adjusted	[
	<u>2017</u>	<u>2016</u>	% Change	-	<u>2017</u>	<u>2016</u>	% Change
Net Sales	\$103.7	\$77.4	34%		\$103.7	\$77.4	34%
Operating Margin	11.4%	10.7%	70 bps		12.0%	17.8%	(580) bps

Renewable Energy & Conservation segment revenues were up 34 percent year over year due to strong demand in Gibraltar's domestic markets, which more than offset the impact from the 2016 European solar market exit.

The fourth-quarter 2017 GAAP and adjusted operating margin reflects a less favorable alignment of material costs to customer selling prices, partially offset by operational improvements resulting from the Company's 80/20 initiatives. This segment's adjusted operating margin for the fourth quarter of 2017 and 2016 removes the special charges for restructuring initiatives, acquisitions and portfolio management activities in line with the Company's strategic objectives.

Tax Reform

On December 22, 2017, the United States enacted the Tax Reform Act, which significantly changed U.S. tax laws by lowering the federal corporate income tax rate from 35% to 21%, imposing a one-time transition tax on deemed repatriated foreign earnings, moving to a territorial tax system, broadening the tax base and other changes. As a result of the Tax Reform Act, Gibraltar's GAAP net income reflects a net benefit of \$12.5 million, or \$0.39 per share, in the fourth quarter of 2017. The net benefit is the result of a \$16.2 million benefit primarily from the remeasurement of the Company's net U.S. deferred tax liabilities at the lower corporate tax rate, partially offset by an expense of \$3.7 million related to foreign earnings.

Business Outlook

"We enter 2018 with continued optimism about the year ahead. We plan to drive sustainable organic growth through the acceleration of new product development initiatives, continue to implement operational improvement projects, and to seek value-added acquisitions in attractive end markets. At the end of the year, on an adjusted basis,

we expect once again to have generated increased profits at a higher rate of return with a more efficient use of capital," said Heard.

Gibraltar is providing its guidance for revenues and earnings for the full year 2018. Gibraltar expects 2018 consolidated revenues to exceed \$1 billion, considering modest growth across the Company's end markets and continued traction from innovative products. GAAP EPS for the full year 2018 are expected to be between \$1.75 and \$1.87, or \$1.96 to \$2.08 on an adjusted basis, as compared to \$1.95 and \$1.71, respectively, in 2017.

For the first quarter of 2018, the Company is expecting revenue in the range of \$213 million to \$220 million as a result of growth across all end markets and continued traction from innovative products. GAAP EPS for the first quarter 2018 are expected to be between \$0.20 and \$0.25, or \$0.23 to \$0.28 on an adjusted basis.

Adjusted Financial Measures

To supplement Gibraltar's consolidated financial statements presented on a GAAP basis, Gibraltar also presented certain adjusted financial measures in this news release. Adjusted financial measures exclude special charges consisting of restructuring costs primarily associated with the 80/20 simplification initiative and portfolio management actions, acquisition-related items, and other reclassifications including the impact of recent tax reform. These adjustments are shown in the reconciliation of adjusted financial measures excluding special charges provided in the supplemental financial schedules that accompany this news release. The Company believes that the presentation of results excluding special charges provides meaningful supplemental data to investors, as well as management, that are indicative of the Company's core operating results and facilitates comparison of operating results across reporting periods as well as comparison with other companies.
