Second Quarter 2014 Earnings Call

August 5, 2014

This presentation should be viewed in conjunction with Gibraltar’s August 5, 2014 earnings press release.
Forward Looking Statements

Certain information set forth in this presentation, other than historical statements, contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 that are based, in whole or in part, on current expectations, estimates, forecasts, and projections about the Company’s business, and management’s beliefs about future operations, results, and financial position. These statements are not guarantees of future performance and are subject to a number of risk factors, uncertainties, and assumptions. Actual events, performance, or results could differ materially from the anticipated events, performance, or results expressed or implied by such forward-looking statements. Before making any investment decisions regarding our company, we strongly advise you to read the section entitled “Risk Factors” in our most recent annual report on Form 10-K which can be accessed under the “SEC Filings” link of the “Investor Info” page of our website at www.Gibraltar1.com. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law or regulation.

Non-GAAP Financial Data
To supplement Gibraltar’s consolidated financial statements presented on a GAAP basis, Gibraltar also presents certain adjusted financial data in this presentation. Adjusted financial data excluded special charges consisting of closing and consolidation of our facilities, acquisition-related costs, and re-financing costs. These adjustments are shown in the Non-GAAP reconciliation of adjusted operating results excluding special charges provided in the financial statements that accompany the earnings news release. The Company believes that the presentation of results excluding special charges provides meaningful supplemental data to investors, as well as management, that are indicative of the Company’s core operating results and facilitates comparison of operating results across reporting periods. These adjusted measures should not be viewed as a substitute for our GAAP results.
